Hi Sanshrit,

You actually don't have to do anything. After two semesters, you will lose access to GT Services and we will assume you are not returning to complete your second degree.

Warm Regards,
Danielle Lesperance Ramirez

Subject: Re: Dropping second Major

Dear Danielle,
Hope you are doing well!
I am writing to request the process for dropping Civil Engineering major as a second major. I have completed all credit requirements for my MS in CSE and have received my post OPT for EAD card.
As I will be graduating this spring (May 2023), I am interested in focusing solely on Computational Science, as my research work in this area has been particularly rewarding.
I have attached my latest i-20 for your reference. Could you kindly guide me on the specific procedures for dropping my Civil Engineering second major?
Thank you for your time and assistance!

Regards
Sanshrit Singhai
